## Paint Sealant

Long Lasting VOC Compliant  
Polymer Sealant

No. 10-QT

Paint Sealant is a high-tech non-abrasive polymer sealant. This quick dry formula combines superior, long lasting gloss with maximum durability. This is the latest defense against fading and oxidation caused by environmental contaminants and harmful ultra violet exposure from the sun. Paint Sealant is easy to use, unlike other sealants. Can be hand or machine applied. New VOC compliant formula is better than ever.

Abrasive Meter

- VOC Compliant
- Long Lasting Protection
- Superior Gloss
- Easy to Use

Make sure the surfaces are clean and clayed. Shake well prior to use.  
**For hand application,** apply a thin layer of Paint Sealant to a wax applicator pad. Wipe the product into the paint.

**For machine application,** apply a thin layer of Paint Sealant to a small area on the vehicle. Buff using an orbital polisher.

Allow to haze, then remove with a soft terry or microfiber towel.
